

**SteelCraft PEB Ltd**  
Crafting your building by steel

## COMPANY PROFILE

### About us

SteelCraft PEB Ltd. began with a passion for craftsmanship. This passion led its founder and Managing Director Engr. Md. Golam Hossain to start a business that provided services and products to diverse industries in need of custom steel fabrication. SteelCraft PEB Ltd. is a sister concern of "Tanjim Group" and incorporated as a private limited company on 27th of January 2016. Since inception Engr. Md. Golam Hossain has strived to maintain a company culture that emphasizes a high level of craftsmanship and enjoyment in work with latest modern Machineries & Technology along with most experienced and self-recognized professionals. His team consists of a tight-knit group of individuals who are meticulous and enthusiastic about doing great work.

Name of the Company: **SteelCraft PEB Ltd.**

Year of Establishment: 2016

Corporate office: Lalmatia, Block-D,  
H# 6/4 (Ground & 1<sup>st</sup> Floor),  
Dhaka-1207, Bangladesh.

Telephone: +88-02-9132527, +88-02-9132528  
E-mail: steelcraftpebltd@gmail.com  
Web: www.steelcraftpeb.com

Factory: West Char Uria, MannanNagor,  
Sadar, Noakhali-3802, Bangladesh.

Factory Area: 75,000 sft

Production Capacity:	Built-up Section:	1,000 MT per month.
	Purlin & Decking:	2,000 MT per month.
	Profile Sheet:	2,000 MT per month.

Number of Corporate Staff:	Engineer:	10
	Others:	20

Number of Factory Staff:	Engineer & Officers:	25
	Work assistant:	120

## Message *of* Managing Director

We would like to take the privilege to introduce SteelCraft PEB Ltd. to your goodself with a new vision and dedicated services in Pre-fabricated Steel Structure solutions.

Steel is everywhere in people's daily life. Steel has become a fundamental part for the survival of people, supporting our traffic, housing, water and food supply as well as energy conversion and regeneration. So far no other material can replace steel's features of unique strength, formability and versatility. Among various materials that can be used by mankind, steel can provide the best strength weight ratio. Meanwhile, steel can be recycled unlimitedly, which is also the important ecological feature of steel.

We in SteelCraft PEB Ltd. have the determination and desire to move forward, to create value, and to live a long-term economic development legacy, rooted in Building the Nation for lasting Peace & Sustainability has always been the driver of our development goals.

Driven by the desire to support the development of our emerging economy, we are constantly committed to quality, competitiveness and dedicated services in structural steel manufacturing and erection, which help us, continue to take great leap forward.

At SteelCraft PEB Ltd., our team is dedicated to go the extra mile for all of our customers, no matter how big or small a project may be. We look forward to working with you in the future!

**Engr. Md. Golam Hossain**  
B.Sc. (Civil), BUET, FIEB

## Our Mission

Participate in National Development work with Quality Steel Structures.

## Our Vision

To be the world class standard for steel construction companies by:

- ☐ Being the preferred vendor of choice by servicing our customers to create economic success in each project.
- ☐ Collaborating with customers to achieve maximum fabrication efficiency and cost reduction while maintaining the quality our customers expect.
- ☐ Creating a place of employment where we can learn, grow and be fulfilled in the work we do.
- ☐ Making the communities in which we work a better place to live.

## Core Values

- ☐ **Safety First** - We ensure a safe, healthy work environment and a 'zero injury' culture.
- ☐ **Trust and Openness** - We conduct ourselves professionally, with openness, respect and integrity.
- ☐ **Passion for Excellence** - Pace-setting and innovative. Always striving to find a better way. Doing it right the first time - every time.
- ☐ **A People Focused, Learning Culture** - Developing the best leaders and realizing the full potential of our people. Learning is core - we never stop trying to improve.
- ☐ **Results Oriented** - We have a 'do whatever it takes' attitude. Empowered and entrepreneurial operations within a common framework of values, strategies and key processes.

## Steel Fabrication Services

Strength and durability are qualities that are naturally associated with steel; the same can be said of Steel Fabricators. We have become the preferred-source structural steel fabrication and construction firm by providing a dynamic full range of design, engineering, fabrication and erection services. Our complete in-house capabilities successfully enable fast response, maximum flexibility and complete coordination of all phases of any project. Steel Fabricators' clients are assured of a more profitable venture because our comprehensive array of services provides well-managed projects, with better quality, predictability, and cost efficiency.

## **Design & Detailing Capabilities**

Design & Detailing is the cornerstone of high-quality steel fabrication. Our in-house design and detailing staff has the skill and knowledge to tackle all of the structural needs of our clients. Our Project Teams are intricately involved in the fabrication process from bidding to final construction. By being involved throughout the construction process we can provide our clients with a multiple tier depth of project management. Insuring that their project is done right and right on time.

## **Structures and Specifications**

Our reputation for exceptional performance over a comprehensive spectrum of steel fabrication and erection projects can best be appreciated by viewing the steel structures we have proudly erected. We apply an exceptional fabrication methodology to every type of structural challenge presented to us. You can always recognize a Steel Fabricators project by the craftsmanship apparent in everything from the framework, walls, and decking we erect, to our signature precision technique for preparing beams, tubes, angles, channels, and bolts.

## **Erection & Installation**

This company has a defined procedure of steel structure building erection and installation. The procedure ensures all engineering techniques required for steel structure erection and maintaining all safety parameters.

We use different modern tools & equipment for bolting, tightening screws, building alignment and measuring & and maintaining different other parameters of building erection.

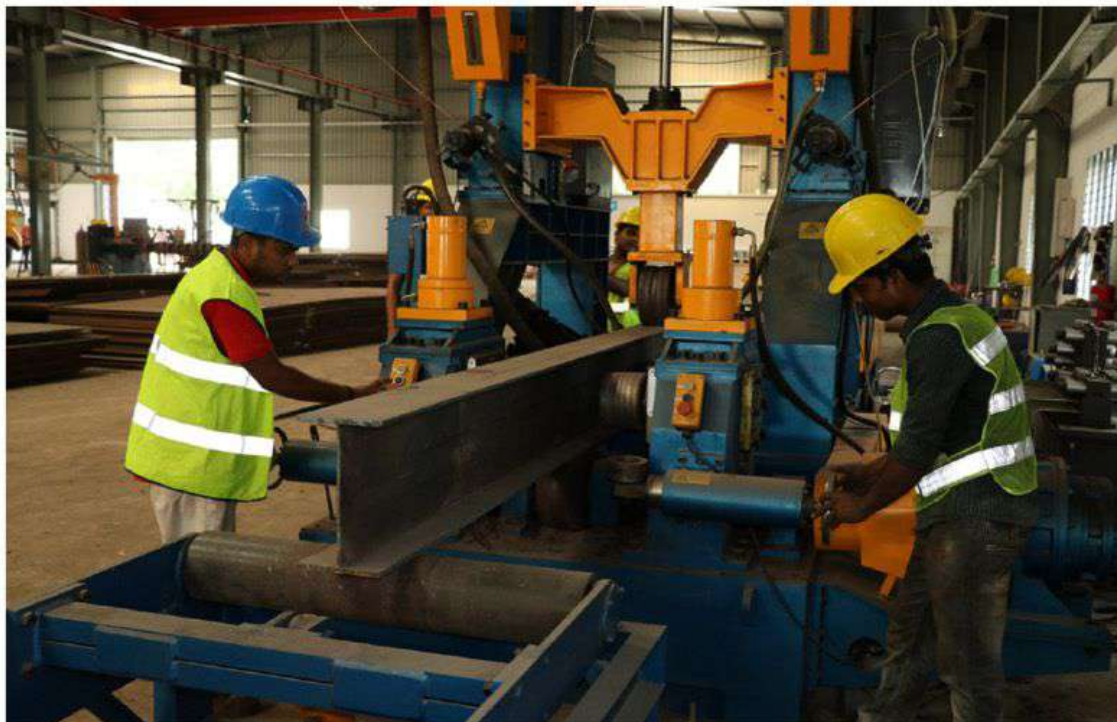

## **Manufacturing Unit**

We have a well-equipped fabrication facility, custom designed to meet our needs as steel fabricators. We have team of in-house Professional Engineers, Certified Welding Supervisor, Fitters, Certified Welders, painters, loaders and other shop manpower. At SteelCraft PEB Ltd we utilize state-of-the-art equipment to handle all aspects of steel fabrication, as well as the application of the sophisticated painting and coatings.

We constantly coordinate with our clients all-away to the last step of the fabrication, from first considering ideas and plans and initial design and consultation to fabrication to your precise specification and on site problem solving and guidance. Our goal is to provide the highest quality service possible, as well as a product that we can be proud of.

## Our Products

Pre-Engineered Buildings (PEBs) are the latest trend in construction industry. A PEB is a metal building that consists of light gauge metal standing seam roof panels on steel purlins spanning between rigid frames with light gauge metal wall cladding. They drastically reduce construction time. Maintenance is also extremely low. PEBs optimally utilize resources, and leverage technology to the maximum. PEBs have gained a global reputation for durability, water and earthquake resistance. PEBs are tremendously versatile – they are easy to set-up, expand, modify, and transport to different locations.

They are environmentally friendly and can be aesthetically designed with unique features. An estimated 20-30% can be saved on cost, as compared to conventional building methods.

## Product Categories

- ◆ Built-up Section for Primary structural framing members (Columns, Rafters, Beams)
- ◆ Cold-formed "Z" and "C" sections to make secondary structural members (roof purlins, and wall girts)
- ◆ Roll formed profiled sheeting (roof and wall panels)
- ◆ Optional sub-systems which includes mezzanine floors, crane runway beams, roof platforms, catwalks, etc.

## Quality Assurance

SteelCraft PEB Ltd. has a strong Quality Control Team to ensure the highest quality of products maintaining all statutory standards relevant to the steel structures. They have the authority to inspect all materials at different stage of production and testing of all finished products. This team also has the authority to pass, reject or quarantine the nonconforming products based on objective evidence.

As a routine job QC staffs conducts dimensional checks of all items like, size of the members, hole size and appropriate placement, different clits and their placement etc. For welding tests we do 100% visual check for all welding. We also conduct other Non-Destructive tests (NDT) as requested by the customers.

## Quality Control

QC inspection starts with checking of raw materials for compliance. Products are inspected at all stages of fabrication for welding quality, dimensional tolerance, surface preparation and coating. All inspection records are stored on file for future reference.

## Customer Care

The SteelCraft marketing and technical team interact directly with clients - significantly reducing response time. They are in constant touch with top STEELCRAFT management; regular updates are submitted on every project. Our team members are experts in building relationships, and retaining them. When you come to us, you know you're in good hands.

## Why Customers choose our Products?

SteelCraft products are offered with the assurance of quality and accuracy. Our customers are choosing our PEBs for the following key reasons:

- ☐ Design versatility
- ☐ Resources availability
- ☐ Speed of project completion
- ☐ Best-in-business pricing
- ☐ 360 degree solutions
